

BEFORE THE FINANCIAL INDUSTRY REGULATORY AUTHORITY (FINRA)

DEPARTMENT OF MARKET OPERATIONS, CORPORATE ACTIONS & DEPARTMENT OF ENFORCEMENT

IN THE MATTER OF:
GOLDEN TRIANGLE VENTURES, INC. (OTC: GTVH)
and
SUNTEX ENTERPRISES, INC. (OTC: SNTX)
and
JAVIER LEAL (Controlling Insider / Officer / Director)

PETITION FOR IMMEDIATE DEFICIENCY DETERMINATION UNDER FINRA RULE 6490(d)(3),
EMERGENCY CEASE & DESIST, AND INVESTIGATION OF FRAUDULENT CORPORATE ACTIONS,
UNREGISTERED SHARE DISTRIBUTION, AND MARKET MANIPULATION

I. JURISDICTIONAL STATEMENT & RELIEF REQUESTED

This Petition and Formal Complaint is submitted to the **FINRA Department of Market Operations**, the **FINRA Corporate Actions Department**, and the **FINRA Department of Enforcement** pursuant to:

1. **FINRA Rule 6490** (*Processing of Company-Related Actions for OTC Securities*);
2. **FINRA Rule 2010** (*Standards of Commercial Honor and Principles of Trade*);
3. **FINRA Rule 2020** (*Use of Manipulative, Deceptive or Other Fraudulent Devices*);
4. **FINRA Rule 3310** (*Anti-Money Laundering Compliance Program*); and
5. **FINRA Regulatory Notices 09-05, 14-19, and 21-03** (*Guidance on Microcap & Unregistered Share Distribution Schemes*).

Emergency Relief Requested:

1. **Immediate Deficiency Determination under Rule 6490(d)(3)**: Issue a formal Determination of Deficiency to **REFUSE TO PROCESS OR ANNOUNCE** any company-related action, share distribution, stock split, exchange, or clearance relating to the **400,000,000 common shares** of Suntex Enterprises, Inc. (SNTX) to be distributed to/through Golden Triangle Ventures, Inc. (GTVH) or its transfer agent.
2. **Transfer Agent & Clearing Freeze**: Notify the Transfer Agent (Item 3 of June 15, 2026 Disclosure) and Depository Trust Company (DTC) of active fraudulent conveyance litigation and regulatory proceedings.
3. **Formal Enforcement Referral**: Refer Javier Leal, GTVH, and SNTX to FINRA Enforcement and the SEC Division of Enforcement for insider self-dealing, market manipulation, and criminal money laundering under 18 U.S.C. 1956/1957.

II. FACTUAL BACKGROUND & THE UNDERLYING SCHEME

1. The Incurrence of Debt & Standstill Agreement (March 29, 2026)

On March 29, 2026, Golden Triangle Ventures, Inc. (GTVH) entered into a binding **Settlement Agreement and Mutual Release** with creditor Bruce Perlowin. GTVH legally bound itself to pay **\$300,000.00** in four equal installments of \$75,000.00 (due April 23, May 22, June 23, and July 23, 2026). In exchange, Perlowin placed underlying contract claims into abeyance.

2. The 3-Month Total Default (\$300,000+ Accelerated)

GTVH has defaulted on **100% of the settlement payments for over three (3) consecutive months**:

- **Installment 1 (April 23, 2026)**: UNPAID (Over 3.5 months in default)
- **Installment 2 (May 22, 2026)**: UNPAID (Over 2.5 months in default)
- **Installment 3 (June 23, 2026)**: UNPAID (Over 1.5 months in default)
- **Installment 4 (July 23, 2026)**: UNPAID (Over 3 weeks in default)

Under Sections 1.3 and 6 of the Agreement, the full **\$300,000.00** principal is now **fully accelerated, overdue, and subject to 18% annual interest and late penalties**.

3. The Fraudulent Asset-Strip Transaction (April 16, 2026)

Just 18 days after signing the Settlement Agreement (and 7 days *before* the first payment was due), GTVH executed an Asset Purchase Agreement (APA) transferring **100% of its revenue-generating operating assets** (Go Fast Beverages, Snapt Beverages, Golden Era, Deep South Electric, and all related IP) to Suntex Enterprises, Inc. (SNTX).

4. The Admission of Liability Dumping

In SNTX's public **Supplemental Information Disclosure dated June 15, 2026**, management explicitly admitted:

- **Item 1 & 4:** SNTX acquired substantially all operating assets while assuming **ZERO liabilities**. *"All liabilities, debts, obligations... of GTVH arising before or after the Effective Date shall remain solely with GTVH."*
- **Item 5:** The transaction was structured specifically to *"separate the operating businesses from such legacy obligations."*
- **Item 6:** The transaction is an insider **Related-Party Transaction** due to overlapping ownership and management.

5. Insider Control & Dual Role of Javier Leal

Javier Leal served as:

- **CEO of GTVH:** August 27, 2025 February 27, 2026
- **CEO & Director of SNTX:** November 12, 2025 Present

Leal stood on both sides of the transaction, orchestrating the stripping of assets from GTVH into SNTX to evade creditors and dump a gutted shell on public GTVH shareholders.

6. The Pending 400 Million Share FINRA Distribution

Item 2 & 3 of the June 15, 2026 Disclosure reveal that SNTX agreed to issue **400,000,000 common shares** to GTVH to distribute to shareholders under the guise of **Rule 144**:

> *"SNTX will transfer the shares to GTVH immediately. GTVH will be responsible for working with the Transfer Agent and FINRA to distribute to the individual shareholders as quickly as the regulations allow."*

III. SPECIFIC VIOLATIONS OF FINRA RULES & OTC REGULATIONS

```

+-----+
| FINRA VIOLATION MATRIX |
+-----+
| FINRA Rule 6490(d)(3) | Mandatory Deficiency Determination for Fraudulent Action |
| FINRA Rule 2010 | Breach of High Standards of Commercial Honor |
| FINRA Rule 2020 | Manipulative, Deceptive, and Fraudulent Devices |
| FINRA Rule 3310 | Anti-Money Laundering (AML) Red Flags & Layering |
| FINRA Rule 6432 | SEC Rule 15c2-11 Disclosure & Information Deficiencies |
| Reg. Notice 21-03 | Unlawful Distribution of Unregistered Microcap Securities |
+-----+

```

1. FINRA Rule 6490(d)(3) Grounds for Deficiency Determination

Under FINRA Rule 6490(d)(3), FINRA Operations has express authority to issue a **Deficiency Determination** and refuse to process a corporate action if:

- **Rule 6490(d)(3)(1):** The corporate action involves an issuer whose officers, directors, or controlling shareholders are the subject of pending litigation, investigation, or regulatory inquiries involving fraud or securities violations.
- **Rule 6490(d)(3)(2):** FINRA has reason to believe the corporate action is related to an **unlawful distribution of securities** or a **scheme to defraud investors or creditors**.

- **Rule 6490(d)(3)(3):** The issuer has failed to provide complete, accurate, or unmanipulated documentation regarding beneficial ownership and corporate debt status.

Application: SNTX and GTVH are attempting to use FINRA's corporate action mechanism to consummate the distribution of 400,000,000 shares resulting directly from an illegal fraudulent conveyance under Nevada UVTA (NRS 112) and Texas TUFTA. FINRA must refuse processing.

2. FINRA Rule 2010 Failure to Observe Standards of Commercial Honor

FINRA Rule 2010 is the core standard governing the ethical conduct of market participants. Orchestrating a sham settlement to induce a creditor into an abeyance, immediately stripping 100% of corporate operating assets to a sister entity under identical insider control, defaulting for 3 consecutive months, and using OTC markets to wash the transaction through a 400M share issuance constitutes an egregious breach of commercial honor.

3. FINRA Rule 2020 Manipulative and Deceptive Contrivances

The APA and share distribution scheme constitutes a deceptive contrivance designed to:

1. Deceive creditors into believing GTVH would fulfill its \$300,000 settlement obligations;
2. Deceive public market investors into buying SNTX and GTVH shares based on an artificial \$4,000,000 asset transfer valuation (\$0.01 per share); and
3. Manipulate the public float of both OTC tickers through massive Rule 144 share dumps.

4. FINRA Rule 3310 & BSA/AML Red Flags (Money Laundering & Layering)

FINRA Rule 3310 requires member firms and market infrastructure to identify and halt money laundering typologies:

- **Placement & Layering:** Moving productive corporate assets across related corporate shells (GTVH -> SNTX) to disguise ownership and defeat creditor attachment.
- **Integration:** Converting stripped physical assets into 400,000,000 publicly tradable OTC shares.
- **Federal Violation:** This scheme constitutes criminal money laundering under **18 U.S.C. 1956(a)(1)(B)(i) and 1957** (monetary transactions > \$10,000 derived from wire/securities fraud).

5. Abuse of Rule 144 & FINRA Regulatory Notices 09-05 & 21-03

FINRA has repeatedly cautioned against microcap schemes where entities use asset transfers between affiliated shells to issue hundreds of millions of shares under claimed Rule 144 exemptions without registration. Because Javier Leal is an affiliate of both GTVH and SNTX, the 400M shares represent **control securities** subject to strict volume limits, holding periods, and mandatory registration.

IV. PETITION FOR IMMEDIATE FINRA ACTION

WHEREFORE, the Petitioner respectfully requests that FINRA immediately order the following relief:

1. **Issue an Immediate Deficiency Determination under FINRA Rule 6490(d)(3)** directing FINRA Market Operations to **REFUSE TO PROCESS, CLEAR, OR ANNOUNCE** any corporate action, stock distribution, or transfer agent request relating to the 400,000,000 SNTX shares.
2. **Issue an Emergency Regulatory Notice to Transfer Agents & Clearing Firms** flagging the GTVH/SNTX transaction for AML red flags under Rule 3310.
3. **Initiate Formal Enforcement Proceedings** against Javier Leal, GTVH, and SNTX for violations of FINRA Rules 2010 and 2020.
4. **Coordinate with the SEC Division of Enforcement** for an immediate trading suspension and temporary restraining order (TRO) under Section 12(k) of the Securities Exchange Act of 1934.

RESPECTFULLY SUBMITTED,

Bruce Perlowin

Complainant / Creditor

Date: August 15, 2026
